

## The Child Health Network for the Greater Toronto Area Presents

### Building the Blocks Toward Understanding Pain in Neonates, Infants, Children and Youth"

**January 18, 2002**  
**8:00 a.m. - 5:00 p.m.**  
**Vaughan Estates at**  
**Sunnybrook - Courtyard Ballroom**  
**2075 Bayview Ave**

## Paediatric Pain Management

This paediatric pain management program was developed by the Child Health Network with the assistance of the Hospital for Sick Children's pain management team. It provides a comprehensive approach to implementation of an organization wide approach to managing pain in the paediatric population

## Key Objectives

- ✗ To understand the importance of developing an organizational approach to paediatric pain management
- ✗ To develop strategies for achieving a paediatric pain management program within an organization
- ✗ To incorporate developmentally appropriate tools for assessing pain in infants and children into clinical practice
- ✗ To describe non-pharmacologic approaches to relieving children's pain
- ✗ To describe strategies for relieving pain in children undergoing painful procedures
- ✗ To discuss the pharmacologic management of post-operative pain in children
